

TRAINING

Climate Change Adaptation for Tribes and Tribal Partners

forestadaptation.org/2019-tribal-adaptation-workshop

Workshop Goals

- Identify priorities and set goals for tribal natural resources management.
- Evaluate challenges and opportunities to meeting goals under climate change.
- Develop actions to help adapt natural resources to changing conditions.
- Develop plans to engage tribal community members in adaptation decisions.

Get the Tribal Adaptation Menu:
www.glifwc.org/ClimateChange

Is this training for me?

This training is designed for tribal natural resource managers, along with partner organizations and key collaborators.

We encourage individuals and small teams to participate and to bring a project that is relevant to you and your work.

Example project ideas:

- Wild rice restoration in a lake
- Protecting cultural sites from storm damage
- Planning for future community needs for hunting and gathering

SUSTAINABLE
DEVELOPMENT INSTITUTE

Reflecting Indigenous Perspectives in Climate Adaptation

Traditional and indigenous knowledges and perspectives have not often been recognized in climate adaptation planning efforts focused on natural and cultural resources. This training will use the new Tribal Adaptation Menu along with the Northern Institute of Applied Climate Science Adaptation Workbook to integrate tribal and traditional values with climate adaptation planning.

Important Information

Workshop dates: October 22-24, 2019

Location: College of Menominee Nation - Omaaenomenewak Pematesenewak Center (Cultural Learning Center) Keshena, WI
